FCC 48Y Natasha 11C
Reserve Grand Champion Female, Farmfair 2016

39 YEARS OF HEREFORDS

We are proud to present our Private Treaty Bull Sale offering for 2017.

Challenging is a word used by many to describe the past year. Weather. Markets. Government. All of these things have given us reason to bear down and grit our teeth a little harder. All of these things have also reminded us the importance of being efficient, and the importance of being able to adapt.

We raise Polled Hereford cattle for many reasons... fertility, docility, longevity, convert-ability, cross-ability just to name a few... but efficiency is always a trait that we never take for granted when it comes to our Hereford cattle. When we look out the front window to a -30 C morning, and see the cows happily working through their day's ration of hay, we are reminded of their heartiness and their ability to thrive when things get challenging.

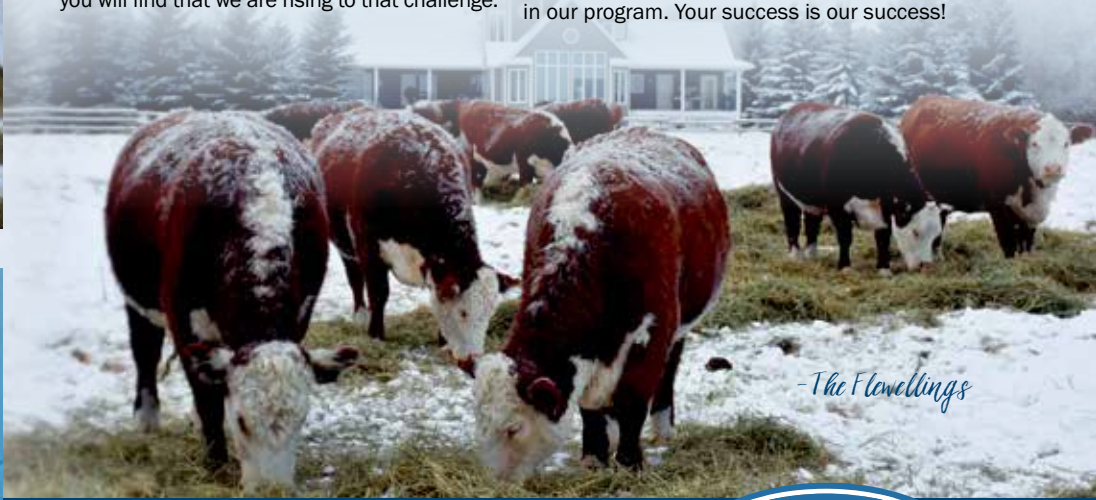

Challenging can also be a word to describe the task we face each year to try and make our bull pen better, stronger, more consistent, and able to service the needs of our valued customers. As you look through our 2017 offering, we think you will find that we are rising to that challenge.

We are again very proud of this years' offering, and think we have a group that will serve the needs of many herds.

The bulls continue to develop very well, and offer the real world economic traits you need. Our goal is to always produce bulls that are structurally sound with extra performance, and keeping calving ease in check. Most important is for our customers to be confident that behind every one of these bulls is a mother you would be proud to have a field full of.

The bulls are developed on a 12% grower ration with quality forages, and are fed with soundness and longevity in mind. Each bull sells halter-broke, semen tested, veterinarian inspected, and fully guaranteed.

The most important economic trait is profit, and we believe these bulls are designed to provide you that. If you have any question on our offering, don't hesitate to give us a call. A big thanks to all of our past customers for showing your confidence in our program. Your success is our success!

-The Flewellings

			FCC 5F BETTY 4K

Surefire is our first son to sell sired by the \$165,000 bull, Remitall-W Start Me Up. Like his sire, Surefire is a high volume bull with extra thickness and muscle shape. His dam is a red eyed, big bodied cow with as good of an udder as any cow we have in our herd. Note she is also a daughter of FCC 36N Betty 1S.

FCC 719T EMPIRE 3D

			FCC 102M PARADISE 3S

Sired by multi-trait leader, 719T, Empire was born moderate and grew to be one of the biggest, longest bodied bulls in our pen. Empire's 2 year old dam was our first Crossover female to calve, and boy did she do a great job! She was definitely a favorite of those who toured our pastures this summer. You can find a picture of her on our website.

FCC Z400 MAGNUM 5D

			FCC 533P LILY 11W

This cherry red bull is out of a beautiful 2 year old dam who did a great job on her first effort. Magnum is correct made and easy on the eyes. With Crossover on the top of the pedigree, and Wonder and Twenty X on the bottom, you will want to keep all of the females out of this guy for sure. HEIFER APPROVED.

FCC 13B SMOKE 16D

Smoke has that "herd bull" look. Moderate at birth, he was our highest performing calf, and has developed to have that extra body and bone that you look for. When you analyze his pedigree, you will see he is double bred 719T and double bred Betty 1S, the foundation dam of our strongest cow family. Smoke will add value to any herd.

FCC 13B CASH 20D

			ANL 32K MAPLE 47N

Here is a performance bull that will definitely add pounds to your calves in the fall! Dude carries that extra length of body but still has lots of capacity and thickness. The Maple 86R cow is also the mother of ANL C Har T100 Tahoe 86 ET 23B, herd sire for Crittenden Bros., and a bull we will have several calves sired by this spring.
